Post covid 19 road map!

WRITTEN BY DEBORAH FORTUNE

We hope this newsletter finds you well. With the publication of the Roadmap for reopening society and business many of us have been busy planning the next steps. At Grow Training we continue to work with you to ensure a safe and compliant return or in most cases continued work for you and your staff. Here at Grow Training we have been working hard to provide solution for you during these tough times and beyond. We have developed a range of products and services available to help you. Our new monthly news letter is the first steps to keep you up to date and informed on what we can do for you. One of these NEW products is our on-line courses with over 90 courses in a range of sectors. As we are phasing businesses back to opening hours it is important that your staff are fully equipped and trained in infection prevention standards. GROW Training provide this training by e-learning which is convenient and effective for your staff and you are certified with CPD credits once completed successful. You can purchase our on-line courses from our website www.growtraining.ie or we can set up your business on a Virtual Academy Business Account with discounts available. Give us a call for more details

Virtual Academy

Virtual Academy

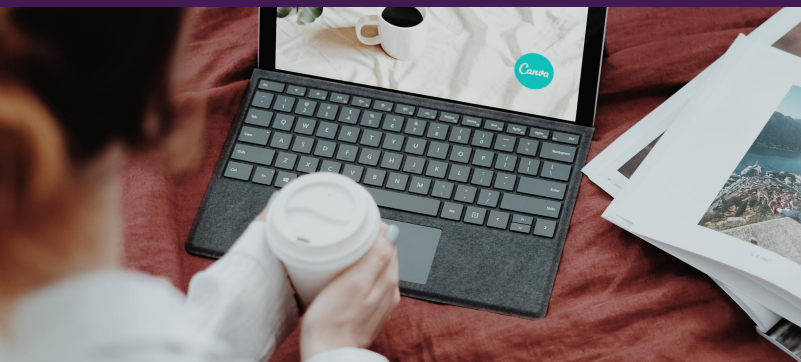

WELCOME TO OUR NEW VIRTUAL ACADEMY ONLINE TRAINING FOR EVERYONE, MADE EASY, WHEREVER YOU ARE
GROW SMARTER GROW FASTER

This type of learning enables the individuals to take recognized examinations, or advance to the next level of education over the Internet. It's easy to operate not only for your staff but you too. We are here to take the hassle out making sure your staff are completing and compliant.

The trainers at Grow Training are always understanding, there is no need to be shy. Giving them a simple phone call can help you understand hard material. The option of having a virtual academy meets the need for a different educational environment whether for flexibility or security.

Virtual academy have many advantages that traditional face to face do not offer and they seem to provide an education level of equal or better value than face to face for some.

In addition to selling the courses individually, we can also offer the courses alongside our other services given a blended and incorporate this into one overarching commercial model to suit your business creating your business with its own unique Learning and Development infrastructure. Specialties: Finding Real Solutions for Real People - we are passionately training and upskilling people in all industries and are committed to helping create skilled, educated health and social care providers in the Ireland.

**"GROW YOUR SKILLS,
GROW YOUR
POTENTIAL, GROW
YOU!"**

WHAT OUR CUSTOMERS HAVE TO SAY!

*"I had to complete one of Grow Trainings
on-line courses
as part of a job requirement in the health care sector.
Deborah and the team
were brilliant with the help, support and time they
gave me which enabled me to complete and achieve
what I
needed and made me feel good about myself that I
want to continue learning"*
Thanks Glenda

*"Had to get my work force and business back trading
on the 18th. Deborah and the Grow Training Team
were fantastic. They took all the worry and hassle out
of making sure everyone had completed and Passed
their course requirements on time. We deal with the
public and Grow Training give me and my staff the
confidence and skills in these uncertain times"*
Thank you Deborah and team
Richard

FEATURED COURSE - INFECTION PREVENTION AND CONTROL GROW SMARTER GROW FASTER

CPD Approved

Course Description- Due to the current environmental situation this course is critical for ALL whether it be a refresher for some or new to you. Infection prevention and control measures aim to ensure the protection of those who might be vulnerable to acquiring an infection. Ok but why is this important?

Excluding present times, every year at least 300,000 people develop a Health Care Associated Infection. This has a huge impact on the patient, the staff and the institution it occurs in. Whereas if there is good infection prevention and control, patients will have better health and more independence. This course will start by defining infection prevention and control and explaining the impact of good and bad infection control. It then goes into detail about, the legislation that applies to infection control, the different types of microorganisms, how bacteria are transmitted, the chain of infection, and much more.

Target Audience

This course is aimed at all staff and management in or returning to work in these present times.

Advantages

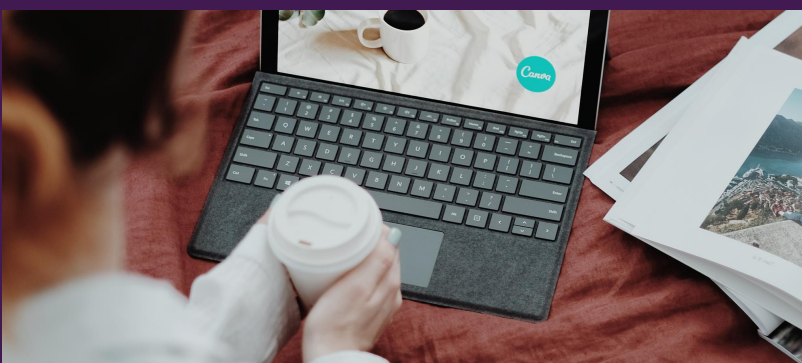

CPD approval means that this course meets the rigorous standards of this leading industry body.

Online training is flexible, efficient and cost-effective. It will reassure staff and customers in these uncertain times.

Further Progression

Courses that we would recommend while working remotely from home:

Time management -as anxieties and stress levels may be running Good time management enables you to work smarter – not harder – so that you get more done in less time home. **Stress Management**- for anyone who may find themselves stressed, why it's a problem, some of the causes of stress and some ways to minimise the risk of stress for the motive of improving everyday functioning.

*"GROW YOUR SKILLS,
GROW YOUR
POTENTIAL, GROW
YOU!"*
